(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE NO. MC-82 (Sub-No. 1)

PROCEDURES IN MOTOR CARRIER REVENUE PROCEEDINGS -- INTERCITY BUS INDUSTRY
49 CFR PARTS 1132 and 1139

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The Commission is amending 49 CFR 1139.20 to permit motor common carriers of passengers to file schedules proposing general increases in fares to be effective at least 30 days after the date of filing rather than 45 days as presently required. In addition, the Commission is amending 49 CFR 1132.1 to change the protest and reply filing times for these proceedings to 8 days before the effective date of the proposal and 2 working days before the effective date, respectively.

The present 45-day notice provision constitutes a regulatory burden for individual carriers and the industry, and is inconsistent with the Bus Act reforms. To summarize, the concerns that gave rise to the 45-day requirement--limited entry and ratemaking primarily through collective action--no longer exist.

Reduction of the notice period will reduce regulatory lag in the review of proposed general increases of the intercity bus industry. It will increase the ability of bus carriers to respond to new market demands, and adjust rates to meet sudden or unanticipated cost increases. This action also is consistent with our continuing efforts to reduce unnecessary and burdensome rate regulation. Since the bus industry has become more competitive as a result of the Bus Act, a carrier's ability to respond to new market demands, free of regulatory interference, has increased in importance.

EFFECTIVE DATE: These rules will be effective March 24, 1986.

ENERGY AND ENVIRONMENTAL ANALYSIS

This action does not appear to affect significantly the quality of the human environment or conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

We affirm our prior determination that adoption of the regulations in this decision will not have a significant economic impact on a substantial number of small entities. Carriers thus required to submit their evidence when they file their schedules are hereby notified that special permission to file those schedules shall be conditioned upon the publishing of an effective date at least 30 days later than the date of filing, to enable proper evaluation of the evidence presented. Data to be submitted in accordance with §§1139.21 through 1139.23 represent the minimum data required to be filed and served, and in no way shall be considered as limiting the type of evidence that may be presented at the time of filing of the schedules. EX PARTE NO. MC-169 (Sub-No. 1)

AUTOMATIC EXPANSION OF ZONE OF RATE FREEDOM FOR MOTOR COMMON CARRIERS OF PROPERTY AND FREIGHT FORWARDERS

[49 CFR PART 1312]

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Motor Carrier Act of 1980 permits motor common carriers of property and freight forwarders to reduce or increase rates within a 10 percent zone of rate freedom (ZORF) without investigation, suspension, revision, or revocation on the grounds that the changed rate is unreasonable because it is too high or too low. The Commission can increase the zone by up to five percentage points during any one-year period if it finds that there is sufficient actual and potential competition to regulate rates and that carriers or freight forwarders, shippers, and the public will benefit from increased rate flexibility.

In Ex Parte No. MC-169, Expansion of Zone of Reasonableness, 367 I.C.C. 907 (1984), the Commission exercised its authority to expand the ZORF by increasing the zone to 15 percent. As a result of that decision, motor common carriers of property and freight forwarders may now reduce or increase rates by up to 15 percent without Commission interference. The Commission now proposes a rule that for each future year makes a five percent increase in the ZORF automatic in the absence of Commission action to the contrary. Adoption of this proposal will require revision of the rules established by the Commission in Docket No. 37416, Identification of Rates Filed Under Zone of Rate Freedom By Motor Common Carriers of Property and Freight Forwarders (not printed), decided July 15, 1980, as amended in Ex Parte No. MC-169, supra, which set forth the manner in which carriers must notify the Commission when they wish to have rates considered under the zone.

DATES: Comments are due March 24, 1986.

ENERGY AND ENVIRONMENTAL CONSIDERATIONS

This action does not appear to affect significantly the quality of the human environment or conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

This action will not have a significant economic impact on a substantial number of small entities because we are only affecting the timing of the approval of the ZORF increase.

The index terms for 49 CFR 1312 are as follows: buses, freight, freight forwarders, maritime carriers, motor carriers, passengers vessels, pipelines, and railroads.

§ 1312.4 Filing tariffs.

+ + + +

(b) Letters of transmittal. + + +

(7) + + +

(ii) If the application of the proposed rate, charge, or provision would result in an increase in charges, the letter shall state that the proposed increase in the aggregate is not more than 15 percent+ above that in effect 1 year prior to the effective date of the proposed increase.

(iii) If the application of the proposed rate, charge, or provision would result in a reduction in charges, the letter shall state that the proposed reduction in the aggregate shall be no more than 15 percent+ below the lesser of that in effect on July 1, 1980 (or the date, if after July 1, 1980, on which a rate, charge, or provision first became effective for a service not provided by the freight forwarder, or the carrier, on July 1, 1980), or that in effect 1 year prior to the effective date of the proposed reduction.

(iv) The carrier or freight forwarder will also be required in the letter to certify that the rates or provisions do not exceed the amount allowed by Section 10708(d)(3)(A or B); and that the rates or provisions fall within the 15 percent+ zone; also, if the rate is more than 15 percent+ above the rate in effect one year earlier, to include in the statement whether the proposed rate has been subject to general rate increases during the previous year, what percent increase was taken, the bureaus which published the increase, and the effective date.

+ + + + +

+Commencing on [effective date of the rule change] and at the end of each one-year period thereafter, this percentage shall be automatically increased by 5 percentage points, in the absence of Commission action to the contrary. In addition, the applicable percentage shall be increased or decreased, as the case may be, by the percentage change in the Producers Price Index, as published by the Department of Labor, that has occurred during the one-year period prior to the effective date of the proposed rate. 49 U.S.C. 10708(d)(3)(B).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

49 CFR Part 1063

EX PARTE No. MC-95 (Sub-No. 3)

REGULATIONS GOVERNING THE ADEQUACY OF INTERCITY MOTOR COMMON CARRIER PASSENGER SERVICE
(Modification of Regulations)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of discontinuance of rulemaking proceeding.

SUMMARY: This proceeding concerning adequacy of service, equipment, and facilities provided by motor passenger carriers operating over regular routes was reopened for further comments by decision served November 30, 1984. Notice of the action was published December 3, 1984, in the ICC Register and the Federal Register at 49 FR 47277. The supplemental comments that have been submitted have identified no reasons why any modifications to the existing regulations should be adopted. The Commission has concluded that the increasingly competitive environment fostered under the provisions of the Bus Regulatory Reform Act of 1982 makes it unnecessary to impose more stringent requirements upon the intercity bus industry.

DATES: This proceeding is discontinued, effective March 6, 1986.

SUPPLEMENTARY INFORMATION:

Additional information is contained in the full Commission decision, which is available for public inspection at the Office of the Secretary, Room 2215, 12th Street and Constitution Ave., N.W., Washington, DC 20423. Copies may be purchased from T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, D.C. 20423, or call (800) 424-5403, or (202) 289-4357 in the Washington, DC, Metropolitan area.

This decision will not significantly affect the quality of the human environment or the conservation of energy resources, nor will it have a significant effect on a substantial number of small authorities.

The subject involved in 49 CFR Part 1063 is:

Buses.

This decision is issued pursuant to 5 U.S.C. 553 and 559 and 49 U.S.C. 10102, 10321, 10703, 10762, 10730, 10922, 11145, and 11702.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

GEORGIA-PACIFIC CORPORATION - CONTINUANCE IN CONTROL
EXEMPTION - ASHLEY, DREW AND NORTHERN RAILWAY COMPANY,
FORDYCE AND PRINCETON RAILWAY COMPANY, AND
CALIFORNIA -WESTERN RAILROAD

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed exemption

SUMMARY: Georgia-Pacific Corporation (G-P), a manufacturer and distributor of paper and wood products, holds motor contract carrier authority from the Commission in No. MC-153669 (Sub-Nos. 1 and 3) to transport specified commodities for named shippers. G-P also owns and controls three Class III railroads, the Ashley, Drew and Nothern Railway Company, the Fordyce and Princeton Railway Company, and the California-Western Railway. Acquisition of control of the three short-line railroads by G-P has previously been approved by the Commission in Finance Docket Nos. 24358 and 27492.

By decision served October 23, 1985 in No. MC-153669 (Sub-No. 4), Georgia-Pacific Corporation DBA Pulp and Paper Transport, G-P was granted contract carrier authority to transport general commodities (with exceptions) between points in the United States under continuing contract(s) with commercial shippers and receivers of such commodities. Because common control was not expressly approved when G-P's Sub-No. 1 and Sub-No. 3 authorities were issued, G-P has filed this petition to exempt its control as a motor carrier of the three short-line railroads. Pursuant to 49 U.S.C. 11343(e), G-P seeks exemptions from the provision of 49 U.S.C. 11343(a)(5), and from the provisions of the Commission's regulations at 49 CFR 1180, 1182, 1183, and 1186.

G-P's motor carrier operations usually involve backhaul movements to balance its private operations. Its three controlled short-line railroads have a total of less than 150 miles of track. G-P argues that these operations are of limited scope and that a grant of an exemption here will not result in an abuse of market power. G-P requests that the Commission exempt it and its subsidiary railroads from the common control provisions of section 11343 with regard to its motor carrier operations under Docket No. MC-153669 and subnumbers thereunder.

DATES: Comments must be received by April 10, 1986.

ADDRESSES: Send comments (an original and 10 copies) referring to Docket No. MC-F-17113 to:

G-P seeks an exemption under 49 U.S.C. 11343(e) and the Commission's regulations in Ex Parte No. 400 (Sub-No. 1), Procedures -- Handling Exemptions Filed by Motor Carriers, 367 I.C.C. 113 (1982), 47 Fed. Reg. 53303 (November 24, 1982).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

WILL BE PUBLISHED IN THE FEDERAL REGISTER ON MARCH 12, 1986

EX PARTE No. MC-64 (Sub-No. 2A)

SPECIAL TEMPORARY AUTHORITY PROCEDURES

AGENCY: Interstate Commerce Commission.

ACTION: Discontinuance of proceeding.

SUMMARY: At 45 FR 37912, June 5, 1980, the Commission proposed to add categories of factual situations to be handled by the special temporary authority procedures adopted in Ex Parte No. MC-64 (Sub-No. 2). These appeared to be recurrent problems where a need for service had consistently been found under 49 U.S.C. 10928. The action was proposed so that the Commission could react to the special situations in a more efficient and timely manner. The Commission has now decided against creating new categories of "emergency" situations in addition to the five that now can be handled under General Temporary Order (GTO) No. 22, adopted in Ex Parte No. MC-64 (Sub-No. 2), 45 FR 40680 (1980). Existing ETA procedures can handle adequately the emergency situations originally addressed in this proceeding.

SUPPLEMENTARY INFORMATION:

Additional information is contained in the full Commission decision which is available for public inspection and copying at the Office of the Secretary, Interstate Commerce Commission, or may be purchased from TS InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, 12th St. and Constitution Ave., N.W., Washington, DC 20423; or call toll free (800) 424-5403, or (202) 289-4357 in the Washington, DC metropolitan area.

This action will not affect significantly either the quality of the human environment or the conservation of energy resources.

The subjects involved in this proceeding are:

Motor Carriers; Temporary Authority

This notice and accompanying decision are issued pursuant to 49 U.S.C. 10928 and 10321 and 5 U.S.C. 553.

Decided: March 4, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Under 49 U.S.C. 11343(e) the Commission has exempted, subject to public comment, the continuance in control of South Coast Transport Co. (SCT) (a non-carrier) by NCO, Inc. (NCO). Orin S. Neiman, (a non-carrier individual) controls NCO, (a non-carrier) which controls South Coast Equipment Co. (SCE) (a non-carrier), which in turn controls SCT as a wholly-owned subsidiary. Orin Neiman directly controls Sun Express (Sun) (No. MC-119531). NCO also controls Case Heavy Hauling (Case) (No. MC-145242), and the Edward Corporation (Edward) (a non-carrier) which controls Ohio Fast Freight, Inc. (Ohio) (No. MC-14702). These carriers all hold authority to transport general commodities (except A & B explosives, commodities in bulk, and household goods) between points in the United States (except Alaska and Hawaii). SCT is seeking initial operating authority in (No. MC-189462) to transport (1) general commodities (except classes A and B explosives, and household goods) as a common carrier, between points in the United States (except Alaska and Hawaii), and (2) general commodities (except classes A & B explosives, and household goods), as a contract carrier between points in the United States under continuing contract(s) with commercial shippers or receivers of such commodities. The various owners and officers of NCO, Case, SCE, Edward, Ohio, and Sun are as follows: O. Neiman, B. Neiman, J. Culcasi, M. Steinberg, C. Sewell, D. Finn, L. Arnstein, and J. Griffith.

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

CORRECTED DECISION

Contrans Corporation Affiliates Bacon Motor Express, Inc. d/b/a
Pacemaker Contract Carrier MC-106863, Pacemaker Express, Inc.-MC-180789,
Laidlaw Carriers, Inc., MC-113784, Zephyr Transport, Inc.-MC-170981,

Decided: March 6, 1986

The Contrans, Corp., a non-carrier, and its family of motor carriers, Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier, MC-106863, Pacemaker Express, Inc., MC-180789, Laidlaw Carriers, Inc., MC-113784, and Zephyr Transport, Inc.- MC-170981 petition for waiver of Section 1057.22(a) and a portion of 1057.22(c)(2) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

We Find:

Petitioners are regulated carriers of property performing for-hire transportation in interstate and foreign commerce within the United States under permits or certificates issued by this Commission. Laidlaw Carriers, Inc. also holds operating authority issued by several Provincial transport boards to conduct similar transportation within Canada.

Contrans Corporation controls Laidlaw Carriers, Inc. and Zephyr Transport, Inc., under Commission order MC-F-16387. Similar authority was granted by order MC-F-16687, served Feb. 4, 1986, for Contrans, Corp. of Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier and Pacemaker Express, Inc.

Petitioners wishing to optimize utilization of the corporate family fleet of vehicles, in conducting the nationwide and foreign transportation service which they have been authorized to perform, will employ prudent exchanges of equipment between the individual members of the group. In an attempt to obtain the maximum potential efficiencies and economies of such exchanges, waiver is sought of those portions of the leasing regulations viewed as creating an unnecessary, since common control exists, administrative burden on the carriers.

Dispatch records and operational logs maintained within the corporate family are available at all times to verify changes in control and responsibility for the operation of the individual vehicles. For these reasons, the petitioners urge that vehicle identification requirements set forth in Section 1057.22(a) and the issuance of receipts required by Section 1057.22(c)(2) be waived, as not needed in the public interest, when equipment is exchanged within the Contrans Corporation family of carriers.

Petitioners agree to compliance with all of the Lease and Interchange of Vehicle regulations, 49 C.F.R. Part 1057, in conducting their operations, however, one of the burdens from which they seek relief is that of issuing equipment receipts. It should be noted that Section 1057(c)(4) requires such receipts in connection with the use of Master Leases. For this reason, any waiver grant should, for consistency, include the receipt requirements of Section 1057(c)(4) as well as Section 1057(c)(2).

We further find that the granting of the petition, modified to include Section 1057.22(c)(4), is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy 49 U.S.C. 10101.

It is Ordered:

1. The petition of Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier, MC-106863, Pacemaker Express Inc., MC-180789, Laidlaw Carriers, Inc., MC-113784, Zephyr Transport, Inc. MC-170981, all members of the Contrans Corporation motor carrier group, for waiver of Sections 1057.22(a) and 1057.22(c)(2), and modified to include 1057.22(c)(4), is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator carrier lease signed by one of the carriers named above.

Interstate Distributor Co., MC-117201, Northwest Contract Carriers, Inc., MC-162817, Interstate Draying Company, MC-151929

Decided: March 6, 1986

Interstate Distributor Co., MC-117201, Northwest Contract Carriers, Inc., MC-162817, and Interstate Draying Company, MC-151929 petition for waiver of Sections 1057.22(a) and portions of 1057.22(c)(2) and (4) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057).

We Find:

Petitioners are engaged in the interstate transportation of property as authorized by certificates and permits issued by this Commission. One hundred percent ownership of the three companies rests in a single family. Operations are conducted under unified safety and maintenance programs. Dispatch records reflecting joint operations are maintained and available for inspection. A single insurance programs provides the required protection for all three petitioners.

The total operation utilizes a fleet of over 400 power units. In the interest of better equipment utilization and providing a more responsive transportation service, petitioners currently exchange equipment in conformity with applicable regulations.

In order to further improve the efficiency of the combined operation, the petitioners now seek a waiver of the regulations requiring vehicle identification and equipment receipts, when equipment is exchanged between themselves. Since common ownership and control exists, the petitioners submit that compliance with these specific requirements of Section 1057.22 serves no useful purpose, is unnecessary, burdensome, and expensive.

Petitioners indicate an understanding that a grant of the requested waiver will be applicable to the exchange of equipment between themselves only as long as common control continues. Also, petitioners agree to comply with all provisions, other than those for which waiver may be granted, of Section 1057.22 when such exchanges are made. Petitioners further represent and acknowledge continued complete compliance with the general leasing regulations of Sections 1057.11 and 1057.12 when owner-operators are involved.

We further find that the granting of the petition is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy at 49 U.S.C. 10101.

It is Ordered:

1. The petition of Interstate Distributor Co., MC-117201, Northwest Contract Carriers, Inc., MC-162817, and Interstate Draying Company, MC-151929 for waiver of Section 1057.22(a) and Sections 1057.22(c)(2) and (4) as they relate to equipment receipts, of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Under 49 U.S.C. 11343(e) the Commission has exempted, subject to public comment, the acquisition of control by Mercury Transportation, Inc. (Mercury), a non-carrier holding company, and, in turn, by Contrans Corp. (Contrans), Mercury's non-carrier parent, of Global Van Lines, Inc. (Global) (MC-41089 and 144860). Mercury currently controls Bacon Motor Express, Inc., d/b/a Pacemaker Contract Carrier (Bacon) (MC-106863), Pacemaker Express, Inc. (Pacemaker) (MC-180789), and Zephyr Transport, Inc. (Zephyr) (MC-170981). Contrans controls Laidlaw Carriers, Inc. (Laidlaw) (MC-113784) and holds temporary authority to control Global through management. Contrans has pending an exemption petition in No. MC-F-17085 seeking to control Global through the purchase of all of the outstanding stock of Global's non-carrier parent company, Global Transportation Services, Inc. Upon consummation of the purchase transaction, petitioners will proceed with the corporate realingment contemplated by the instant transaction, placing Global directly under Mercury's control.

Global is a nationwide motor common and contract carrier of general commodities (with exceptions) and household goods. Bacon is a nationwide contract carrier of general commodities (with exceptions), and holds common carrier authority for specific commodities. Pacemaker and Zephyr hold common carrier authority for general commodities (with exceptions), between points in the 48 contiguous States, and Pacemaker is also a property broker. Laidlaw holds radial common carrier authority to transport general commodities (with exceptions), between points in Michigan, New York, and Ohio, and points principally in the Northeast and Midwest.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

EX PARTE NO. MC-176

SHORT NOTICE EFFECTIVENESS FOR INDEPENDENTLY
FILED MOTOR PASSENGER CARRIER RATES
49 CFR PART 1312

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The Commission, pursuant to applications filed by several passenger carriers, and under 49 U.S.C. 10762(d)(1), adopts final rules that amend 49 CFR Part 1312, to reduce the notice period required for independent rate filings by motor carriers of passengers, including regular route passenger, express and special and charter operations. Independently established rate reductions, rate increases, and new rates for motor passenger carrier fares may now become effective on 1-day's notice, rather than the 30-days' notice previously required by 49 CFR 1312.4(e)(1)(ii)(A). The reduced notice period will enable passenger-carriers to compete more effectively and to respond more quickly to various types of competition, particularly since fuel prices and insurance costs continue to fluctuate. The final rules are set forth in the appendix to this notice.

FOR FURTHER INFORMATION CONTACT:

Robin Williams Denick or Howell I. Sporn
(202) 275-7711 (202) 275-7691

SUPPLEMENTARY INFORMATION:

Proposed rules in this proceeding were published at 50 FR 53168, December 30, 1985.

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission, Washington, DC 20423, or call 289-4357 (DC Metropolitan area) or toll free (800) 424-5403.

ENERGY AND ENVIRONMENTAL CONSIDERATIONS

The final rules as adopted here will not affect significantly the quality of the human environment or conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that adoption of these rules will not have a significant economic impact on a substantial number of small entities because they affect only the notice period required for motor passenger carrier rate filings. Reduction of the notice period is consistent with the National Transportation Policy, 49 U.S.C. 10101, which encourages the Commission to reduce burdens and promote an economic and efficient transportation system.

The index terms for 49 CFR Part 1312 are as follows:
Buses and Tariffs.

Decided: March 14, 1986

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

James H. Bayne
(SEAL) Secretary

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

ACTION: Notice of final rules.

SUMMARY: On January 27, 1986, the Commission issued a decision granting a waiver to United Parcel Service (UPS) from the recordkeeping requirements of 49 CFR 1051.1 [51 FR 3516, January 28, 1986]. In that decision we announced that we would examine further the possibility of waiving the recordkeeping provisions with respect to all general freight carriers. The Commission has determined that such proposal has merit and therefore, is adopting rules allowing waiver of the recordkeeping requirements of 49 CFR 1051.1 for all common carriers and shippers where packages designated as low value are involved.

SUPPLEMENTARY INFORMATION:

Title 49 of the CFR is amended as follows:

1. The authority citations following §1051.1 and 1051.2 are removed and an authority citation for 49 CFR Part 1051 is added to read as follows:

AUTHORITY: 49 U.S.C. 10321 and 11144; 5 U.S.C. 553.

2. Section 1051.1 is amended by adding new paragraph (c) to precede the cross reference to read as follows:

§1051.1 Information to be shown.

x x x x x

(c) The carrier and shipper may elect to waive the above provisions and use a more streamlined recordkeeping or documentation system, as devised by the common carrier, for distribution of "low value" packages. Election of this waiver includes the option of shipping such packages under the released rates provision of 49 U.S.C. 10730. The shipper has the ultimate responsibility for determining which of its packages should be designated as low value. A useful guideline for for such a determination is an invoice value less than or equal to the costs associated with preparing a loss or damage claim.

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. Infosystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call 289-4357 (D.C. Metropolitan area) or toll free (800) 424-5403.

ENERGY AND ENVIRONMENTAL CONSIDERATIONS

The final rule, as shown in this notice, will not affect significantly the quality of the human environment or the conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that adoption of the rule modification approved in this proceeding will not have a significant economic impact on a substantial number of small entities because only recordkeeping requirements are waived for certain shipments.

The index terms for 49 CFR Part 1051 are as follows: Buses, Freight, and Motor Carriers.

Decided: March 6, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Commissioner Lamboley commented with a separate expression. Vice Chairman Simmons dissented with a separate expression.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:
